PROFESSIONAL EXPERIENCE

Data Analyst Intern – Promist Solutions - ([Certificate](#))

July 2024

- Analyzed **10,000+ sales & marketing records** using **Python & Excel**, identifying key performance drivers.
- Streamlined data cleaning workflows, **reducing data preparation time by 30%**.
- Developed **interactive dashboards & visual reports**, accelerating strategic decision-making by **40%**.
- Delivered **data-driven marketing recommendations**, improving campaign performance by **7%**.

TECHNICAL PROJECTS

Beverage Data Analysis Project - ([Github: Beverage-Sales-Analysis](#))

Feb 2025

- Analyzed **10,000+ sales & marketing records** using **Python & Excel**, identifying key performance drivers.
- Streamlined data cleaning workflows, **reducing data preparation time by 30%**.
- Developed **interactive dashboards & visual reports**, accelerating strategic decision-making by **40%**.
- Delivered **data-driven marketing recommendations**, improving campaign performance by **7%**.

Industry Trends Analysis

Jan 2025

- Engineered a **trend analysis solution** across **5 departments**, aligning product strategies with industry standards.
- Processed **25K+ records** from **multiple sources**, tracking **technology adoption & hiring trends**.
- Built **automated data visualization dashboards**, reducing **report generation time by 40%**.
- Provided **strategic insights**, increasing **decision-making efficiency by 20%**.

Android Development Projects

2023 - 2024

- Developed **3 prototype Android apps** using **Kotlin & Java**, implementing **seamless authentication & API integration**.
- Optimized app performance by **20%** through **efficient debugging & coding best practices**.

Banking Management System – ([GitHub: Banking_Management_System](#))

Jan 2022

- Developed a **secure banking system** using **Python (backend) & SQL (database)**, processing **500+ transactions**.
- Designed an **optimized database** handling **10,000+ customer records**.
- **Improved SQL query performance**, cutting **response times by 25% & retrieval times by 20%**.
- Implemented **core banking features** (account creation, deposits, withdrawals, balance tracking).

ACHIEVEMENTS

Event Operations Manager

March 2023

- Led **planning & execution** of the **One World College Event**, managing **13 stalls** & a **team of 18**, generating **₹3.5L+ in 3 days**.
- Negotiated **10+ vendor partnerships**, increasing revenue by **15%** through hybrid revenue models.
- Managed **personal sales stalls**, sourcing **wholesale products** & achieving a **70%+ sales conversion rate**.

TECHNICAL ACHIEVEMENTS

- **Computer Networking** (*Coursera*) – Designed **5+ simulated networking environments**.
- **Google Cloud Skills Boost** – Completed **10+ labs** on **Cloud Computing, Big Data & ML**.
- **Java Programming** (*iNeuron*) – Developed **15+ real-world coding exercises**.
- **Data Structures & Algorithms (DSA)** (*GeeksforGeeks*) – Mastered **problem-solving & competitive programming**.

SKILLS

- **Programming:** Java, Kotlin, Python, C++
- **Data Analysis:** SQL, Pandas, NumPy, Matplotlib, Seaborn, Excel, Tableau
- **Machine Learning & AI:** TensorFlow, Deep Learning, NLP Basics
- **Business Intelligence:** Financial Analytics, Tally ERP, Tally Prime, Statistical Analysis, Trend Forecasting
- **Tools & Platforms:** Google Cloud, Jupyter Notebook, Google Colab, Android Studio, Git
- **Soft Skills:** Proactive Problem-Solving (↓25% delays), Data-Driven Decision Making, Strategic Communication, Collaborative Leadership

EDUCATIONAL QUALIFICATION

B.Tech Computer Science Engineering, Data Science and ML

2022 - 2026

Lovely Professional University

Phagwara, Punjab

Intermediate

2020 - 2022

Don Bosco Sr Sec. School

Pithoragarh, Uttarakhand
